Mercury Dips In Midwest

By THE ASSOCIATED PRESS

Skies cleared and temperatures dropped in the Midwest today as road crews continued clearing snow-covered roads and highways in the wake of winter's worst snowstorm.

Many small towns remained isolated from the storm, which dumped foot-high falls of snow from the Great Plains to Michigan. Travel on some highways in Wisconsin and northwestern Illinois was slowed by stalled cars and snow drifts.

No heavy snowfalls were indicated during the day in most of the country.

However, a snow belt stretching 400 miles was reported in Texas. Only other wet spots were in the central Rockies, which reported snow flurries, and in south central Texas, hit by showers. Skies were clear in the sout's west but cloudiness was reported in most other sections of the country.

It was below zero again today in northern Midwest areas, with -11 at Grand Forks, N.D., one of the lowest readings.

Colder weather moved into the Atlantic Coast states after Thursday's unseasonably high temperatures. The mercury climbed to 66 9 Navy Airmen in Newark, N.J., a record for Feb. 11, as was the 57 in Windsor Locks, Conn. It was 66 in Baltimore and 56 in Boston. New York's mild 60-plus readings were marred by wind gusts up to 60

Intruder Unidentified As to Nationality

AP) - Argentine warships have crippled a mystery submarine hiding in a southern Argentine gulf and capture of the sub is imminent, Navy Secretary Gaston Cle-

ment announced Thursday night. 'Government authorities claimed the underwater intruder was successfully trapped after 12 days of hide and seek near the Argentine naval base at the head of Golfo Nuevo, 650 miles southwest of Buenos Aires.

Argentina claims the entire gulf -a 20-by-40-square-mile body of water opening into the South Atlantic-as her territorial water.

Rear Adm. Clement for the first time confirmed newspaper reports that the submarine had been attacked, both on the surface and

under water. He told newsmen that the sub is forced to come to the surface every 48 hours, showing she had suffered serious damage from depth charges and artillery shells

fired by Argentine warships. Argentine authorities have been silent on the likely identity of the submarine. Both the United States and Britain said none of their sub-

marines are operating in the area. This is the third foreign submarine scare in Argentine territorial waters within 21 months. The navy announced the other two got away after being detected. Unofficial naval sources said then those two were believed to be So-

While Stock Mart Is Hit By Decline

By SAM DAWSON NEW YORK (AP)-People may have lost some of their enthusiasm for buying stocks, but their spending in the nation's retail stores continues to rise.

Yet like the stock market, re tail sales have their daily ups and downs. And the big storm that has just swept from coast to coast doubtless cut deeply into daily take of the stores where the storm was at its height.

Over-all, strength of retail sales comforts the economists who worry about the psychological effect of the drop in stock prices.

In January, when the stock market was having its roughest time, retail sales advanced more than seasonally. The Department of Commerce says the total topped 16 billion dollars, up 2 per cent over the same month last year, and a similar percentage over December, the traditional month for heavy spending.

Consumer buying trends are closely watched in Wall Street as in Main Street.

Auto sales just now are getting particular attention. There have been reports that sales haven't increased as much as Detroit first hoped. The stock market took that to foretell less demand for steel later on.

But the Commerce Department figures show a two-million-dollar rise in January from December -when, to be sure, the new models were in short supply because of the steel strike. January sales were put at close to three billion

Instalment debt has been rising. Merchants and finance company officials say this reflects a growing confidence on the part of the consumer to meet the payments. He seems much surer of good times ahead than do the traders on the Stock Exchange.

Tight money seems to have had few casualties yet at the retail level. Merchants say that customers show little interest in any rise in time-payment carrying charges.

So the consumer is still carrying the economy along. The opinions of those who buy and sell stocks don't seem to have affected him much as yet.

Instalment debt has been rising. Merchants and finance company officials say this reflects a growing confidence on the part of the consumer to meet the payments. He seems much surer of good times ahead than do the traders on the Stock Exchange.

Tight money seems to have had few casualties yet at the retail level. Merchants say that customshow little interest in any rise in time-payment carrying charges.

So the consumer is still carrying the economy along. The opinions of those who buy and sell stocks don't seem to have affected him much as yet.

2 Mahoning County Towns Queried on Air Pollution

swering its first "emergency call" involving an air polluton incident, the Ohio Health Department has urged two Mahoning County communities-Struthers and Campbell -to adopt a permanent control

The 1957 Legislature authorized the Health Department to assist Ohio communities with air pollution problems, but provided no money for the job. Last year's Legislature supplied the funds. But even without funds, the de-

partment's Division of Industrial Hygene made an extensive study of air pollution in the Ashtabula and Ashtabula County area. It rec-

storm was at its height.

Over-all, strength of retail sales comforts the economists who worry about the psychological effect of the drop in stock prices.

In January, when the stock market was having its roughest time, retail sales advanced more than seasonally. The Department of Commerce says the total topped 16 billion dollars, up 2 percent over the same month last year, and a similar percentage over December, the traditional month for heavy spending.

Consumer buying trends are closely watched in Wall Street as in Main Street.

Auto sales just now are getting particular attention. There have been reports that sales haven't increased as much as Detroit first hoped. The stock market took that to foretell less demand for steel later on.

But the Commerce Department figures show a two-million-dollar rise in January from December

COLUMBUS, Ohio (AP) - An | ommended in April, 1958, that the area's political sub-divisions work together to control problems of irritants from fuel combustion in homes and industry.

"They have made tremendous progress," says Dr. Thomas F. Mancuso, division chief. "That was an extensive study, and we are making another in Racine (Meigs County). But the Mahoning County matter was more of an emergency situation and we rushed right up there."

According to the division's report, released today, there were two occasions in January when air pollution in Struthers and Campbell reached such an extent that the paint on a number of houses was discolored. No illness was

Mayor Harold L. Milligan of Struthers asked the Health Department to study the situation. Engineers who went to the scene said evidence points to hydrogen sulphide gas from coke ovens of the Youngstown Sheet and Tube Co. as the likely cause of pollution. Moist atmosphere would aggravate the situation, they added.

Because control activities must be established at the local level, the department's report suggests that the two communities set up a cooperative program because they are close to each other, have similar problems and might thus save

The department further recommended that they employ an air pollution expert, probably from a university, to make thorough studies before an attempt is made to draft control legislation.

The assumption is that the Third International, which was never really dissolved, has issued such instructions. It is unbelievable that even the weakest Latin American government will tolerate such an indignity.

Surely the people of the United States would respond to such an insult in the only possible way, by immediate physical reprisal, Less than that would condemn us to a shameful cowardice which would destroy our standing nations. The President of the United States is the symbol of the total nation, of all America. No apology, no explanation can wipe away an insult to him. Possibly this is one reason why Presidents have avoided leaving territorial United States in the past. Today Presidents travel everywhere and now that all the arrangements for this visit have been made, there can be no turning back. At the same

TV Highlights

Opening of Olympics Slated for Spotlight

NEW YORK (AP) - A fairly routine seven days of television viewing lies immediately ahead, but there is something of special interest available almost daily.

Two top items on the schedules, possibly, are the opening of the 1960 Winter Olympics and the Show of the Month production of "Ethan Frome" starring Julie Harris and Sterling Hayden-both Thursday night on CBS.

Taking the schedules from the top, however, there is tonight's Telephone Hour (NBC, 8:30-9:30) Eastern standard time with Julie Andrews, Nanette Fabray and Carl Sandburg. CBS wll show a semi-documentary, "Dillinger: A Year to Kill," (9-10). Incidentally, Tuesday Weld turns up on ABC's "77 Sunset Strip" as a teen-age novelist mixed up with blackmail

Saturday night NBC's "Wide World 60" 9:30:10:30 does an exploration of the missile race, while CBS' "Mr. Lucky" (9) converts his floating gambling hell into a supper club-for keeps.

Sunday at 10 a.m. CBS presents an original ballet, "Saul and the Witch of Endor," based on a Biblical episode, on its "Lamp Unto My Feet" religious series. NBC's Sunday Showcase (8-9) is "The Devil and Daniel Webster." with David Wayne and Edward G. Robinson, respectively, in the title

Frank Sinatra's ABC special (9:30-10:30) is of interest Monday night - particularly because of Mrs. Franklin D. Roosevelt and Lena Horne, guests. "The Closed Set," with Joan Fontaine and Agnes Morehead, is the Tuesday night (8:30-9:30) NBC special. Circle Theatre (CBS, 10-11) on Wednesday will explore the handling of juvenile delinquency in Pittsburgh.

it available-is for new mail-processing equpment, expected to speed distribution of mail.

Biggest project in this latest proposal, made public today in the release of a House Appropriations Subcommittee hearing transcript, would be at Pittsburgh. Postmaster General Arthur E. Summerfield wants to spend \$4,380,000 at the Pittsburgh Post Office.

The projects also would include: Toledo, Ohio, \$1,906,000, and Columbus, Ohio, \$3,936,000.

Opening of Olympics Slated for Spotlight

NEW YORK (AP) - A fairly routine seven days of television viewing lies immediately ahead, but there is something of special interest available almost daily.

Two top items on the schedules, possibly, are the opening of the 1960 Winter Olympics and the Show of the Month production of "Ethan Frome" starring Julie Harris and Sterling Hayden-both Thursday night on CBS,

Taking the schedules from the op, however, there is stonight's Telephone Hour (NBC, 8:30-9:30) Eastern standard time with Julie Andrews, Nanette Fabray and Carl Sandburg. CBS will show a semi-documentary, "Dillinger: A Year to Kill," (9-10). Incidentally, Tuesday Weld turns up on ABC's "77 Sunset Strip" as a teen-age novelist mixed up with blackmail

Saturday night NBC's "Wide World 60" 9:30:10:30 does an exploration of the missile race, while CBS' "Mr. Lucky" (9) converts his floating gambling hell into a supper club-for keeps.

Sunday at 10 a.m. CBS presents an original ballet, "Saul and the Witch of Endor," based on a Biblical episode, on its "Lamp Unto My Feet" religious series NBC's Sunday Showcase (8-9) is "The Devil and Daniel Webster." with David Wayne and Edward G. Robinson, respectively, in the title

Frank Sinatra's ABC special (9:30-10:30) is of interest Monday night - particularly because of Mrs. Franklin D. Roosevelt and Lena Horne, guests. Ike Asks Vast Postal Repairs

WASHINGTON (AP)-The Elsenhower Administration wants to spend \$40,177,000 to modernize the operations of post offices in 20 urban areas around the country.

The money-if Congress makes it available-is for new mail-processing equpment, expected to speed distribution of mail.

Biggest project in this latest proposal, made public today in the release of a House Appropriations Subcommittee hearing transcript, would be at Pittsburgh. Postmaster General Arthur E. Sum merfield wants to spend \$4,380,000 at the Pittsburgh Post Office.

The projects also would include: Toledo, Ohio, \$1,906,000, and Columbus, Ohio, \$3,936,000.

District Scout Executive Do you sometimes find yourself becoming so serious about the proper raising up of your boy that you forget to have fun with him?

Our hopes are so bright, our aspirations so great, our obligations so heavy, that we make our life with him a very serious busi-

And it is serious, because in everything you do with that boy of yours today, you are affecting what he will be tomorrow.

That's why it's so important that you have a happy time with your boy in the few precious years of his boyhood. His home must be a happy place. If it is, he will have a much better chance of being a happy boy.

THE ONLY SAD thing about boyhood is that it is so short. Your boy will become quite mannerly far too soon. While you would like more of those characteristics now, you will very soon lament the passing of the things that go with boy-

All natural boys have urges with which you must learn to live. Your reaction to these things will have much to do with the development of wholesome relations with your

The ranch is rich in history, dating back to the 1500's when the Spanish first sent settlers to the towns of Taos and Santa Fe.

THE OLD TAOS TRAIL, which the Pueblo Indians used for centuries to go from the eastern side of the Sangre Cristo Mountains to Taos, runs across Philmont at the Agua Frai and Rayado Trail Camps.

The ranch was originally part of the largest Spanish Land Grant ever awarded. It was known as the Beaubien-Miranda Grant.

This property came into the hands of Lucien B. Maxwell through his marriage to one of Beaubien's daughters. At the time the grant included 1,700,000 acres of plains and mountain land.

Part of Maxwell's old hacienda is still standing and in use today at the Carson - Maxwell Base Camp. Maxwell's good friend, Kit Carson, also built a home by the Rayado River. It was built about 200 yards south of Maxwell's hacienda.

The building was refurnished by the Boy Scouts and is still standing today having been made into a museum to commemorate the many things prominent in the time of Carson and Maxwell.

The Old Sante Fe Trail ran in front of the homes of these two men, and even today just east of Carson - Maxwell, can be seen the wagon wheel ruts of the old prairie schooners which were so important in the settling of the west.

SO IN THIS land where Kit Carson hunted and fished and fought the Indians, thousands of boys each summer come to hike over many of the same trails and to participate in Scouting's high ad-

There have been reports, not yet brought into the testimony, that many of the 2,000 disc jockeys attending were entertained with girls and lavish parties at the convention.

There was no mention of girls in Wednesday's testimony. However, Eicher made clear that liquor flowed freely-at the expense of the phonograph record people.

Eicher, reading from hotel records subpoenaed by the subcommittee, noted for example that Capitol Records picked up a \$12,-357 bill for a cocktail party the night of May 29.

Eicher also was questioned about a \$15,415 expense ite m attributed to Roulette Records of New York for a combination breakfast-barbecue which listed a bar bill of \$8,

Earlier, the subcommittee was told by a former record librarian at a Cleveland station that seven record firms paid him \$3,500 in 1958-59.

However, the witness, Charles Young, denied giving any preference in preparing a weekly list of the most popular records on station KYW in Cleveland.

Young, who was fired by KYW last November on payola charges, said the record companies requested and obtained the benefit of his judgment on whether their records merited heavy promotional outlays.

"Did you feel they were buying your expert knowledge or your influence?" inquired Rep. John E. Moss (D-Calif).

Hesitating, Young said, "I suppose they were . . . " Then, continuing, he added: "They were trying to influence

The ranch was originally part of the largest Spanish Land Grant ever awarded. It was known as the Beaubien-Miranda Grant.

This property came into the hands of Lucien B. Maxwell through his marriage to one of Beaubien's daughters. At the time the grant included 1,700,000 acres of plains and mountain land.

Part of Maxwell's old hacienda is still standing and in use today at the Carson - Maxwell Base Camp. Maxwell's good friend, Kit Carson, also built a home by the Rayado River. It was built about 200 yards south of Maxwell's hacienda.

The building was refurnished by the Boy Scouts and is still standing today having been made into a museum to commemorate the many things prominent in the time of Carson and Maxwell.

The Old Sante Fe Trail ran in front of the homes of these two men, and even today just east of Carson - Maxwell, can be seen the wagon wheel ruts of the old prairie schooners which were so important in the settling of the west.

SO IN THIS land where Kit Carson hunted and fished and fought the Indians, thousands of boys each summer come to hike over many of the same trails and to participate in Scouting's high ad-

Cub Scouting Designed To Help Parents and Sons

Cub Scouting, with its nearly! two and a half million boy members and adult volunteer leaders has been termed "America's largest and most dynamic parent and

Designed to help parents of eight, nine, and ten-year old sons assist their sons through one of the most vital periods of life, the Cub Scout program is a year-round, home - centered program of activities.

The Cub Scout learns to be helpful to others and to be self-reliant. The program teaches a boy to do interesting things - handicrafts, collections, games, stunts, nature

lore, and hobbies with his parents. In most packs, parents sign up with their boys, mothers serving as Den Mothers or helpers in othden dads or pack committeemen. of the Boy Scouts of America.

CUB SCOUTING has had an impact on many phases of America's society. It is found in rural areas, suburban homes and big city apartments. Cub Scouts are constantly on the go, working on the various requirements called for in their achievement program.

Cub Scouts get together in their weekly den meetings under the supervision of their Den Mother and den chief. This Cub Scout den is a small neighborhood group of boys who like to be together. They learn how to get along with other people and find out more

During the week each Cub Scout gets his father and mother to work with him on his various achievements. In this way home life is built more solidly and family teamwork is enriched.

Pickaway Boy Scout District chairman, Judge Guy G. Cline, today outlined the functions and reasoning behind holding the monthly adult "Roundtable"

All adult scouters are urged to attend these meetings held in the Lutheran Church the first Thursday of each month. Usual attendance is in the form of unit leaders, den mothers, committeemen and interested parents.. The coming month's theme is

planned and explained. Ideas are 9:30 p. m. until 1 a. m. exchanged and programs prepared. Cub and Boy Scout programs are naturally separate, each having its own program. District and central Ohio Council

events are promoted, craft hints are shown and songs ring the air.

All ideas are taken back to the individual units where they are put into good use.

ents and Cub Scouts of the var-

With Boy Scouting so popular it was inevitable that some folks would want a younger boy program. Parents and institutions

were demanding one. In 1926 the National Executive Board authorized the development of a program for younger boys.

The Laura Spelman Rockefeller Foundation made available \$50,000 for research. A series of careful studies was made, covering the nature of character and how it may be influenced; the characteristics of boys of pre-Scout age; the activities and games engaged in by such boys; the available program devices and their adaption to the natural home and neighborhood situation, and how to gear this into er ways, and fathers signing up as the national and local experience

> THE READING habits and interests of boys of Cub age were explored and the findings used in building the program.

An advisory committee, appointed in 1928, was made up of some of the ablest men in the country in their knowledge of the psychology

In addition 13,500 leading psy chologists, teachers, superintendents, professors of education, college executives, reaction and welfare directors, leaders of boys, groups, parents, Scouters, and others, cooperated in reviewing and approving the proposed pro-

In 1929 the National Executive Board approved a plan to experiment with the program in a limited number of communities and after four years of experimentation, the program was formally launched in 1933.

The Cub Scout program is different from the younger boy program of any other country in the world in that it is home - and - neighborhood centered and includes between meeting time activities.

Overlapping with Scouting was carefully avoided. The Cub Scout program was worked out so that it would stimulate the boy's interest in Scouting when the time came for him to be old enough, to outgrow his pack and join a Scout

Locally Cub Scouting has made a strong record with 147 boys in its six Cub Scout packs.

West Virginia Falls To Redman Outfit

By THE ASSOCIATED PRESS A few weeks ago, Coach Joe Lapchick of St. John's warned future opponents not to take his New York Redmen too lightly despite their slow start. Today, the West Virginia Mountaineers the ball bounces right. realize Lapchick knew what he was talking about.

Thursday night, the New York the top three contenders - Los club knocked off the fifth-ranked Angeles, San Francisco and Mil-Mountaineers 79-73 for its seventh straight triumph. The victory came after New York University defeated Manhattan 75-74 in the opener of the Madison Square Garden doubleheader. That game erupted into a melee near the end when NYU's Tom Sanders and Manhattan's Charley Koenig squared off in a fist fight.

Neither was it a particularly good night for two other teams ranked among the first 20. Miami of Florida, No. 10, was upset by Stetson 73-72 and North Carolina, No. 13, was tripped up by Wake Forest 80-69. Eight-ranked Villanova, however, rode over Pittsburgh 76-49.

Jerry West, West Virginia's All-America, gave a great performance against St. John's as he scored 32 points, but his individual efforts were not enough to offset the all-around fine play of the Redmen. St. John's attack was paced by Tony Jackson with 20 points. The setback was West Virginia's third in 22 games. St. John's is 13-5.

Jon and Jeff Feldman, George Washington's pint - sized twins, scored 40 points between them as the Colonials whipped Virginia Military Institute 95-78. Jon had 25 points.

Furman hit on 55 per cent of its field goals in defeating South Caroline 96-85. Byron Pinson was 25 points.

That game erupted into a melee near the end when NYU's Tom Sanders and Manhattan's Charley Koenig squared off in a fist fight.

Neither was it a particularly good night for two other teams ranked among the first 20. Miami of Florida, No. 10, was upset by Stetson 73-72 and North Carolina, No. 13, was tripped up by Wake Forest 80-69. Eight-ranked Villanova, however, rode over Pittsburgh 76-49.

Jerry West, West Virginia's All-America, gave a great performance against St. John's as he scored 32 points, but his individual efforts were not enough to offset the all-around fine play of the Redmen. St. John's attack was paced by Tony Jackson with 20 points. The setback was West Virginia's third in 22 games. St. John's is 13-5.

Jon and Jeff Feldman, George Washington's pint - sized twins, scored 40 points between them as Again Seeking the Colonials whipped Virginia Military Institute 95-78. Jon had 25 points.

LOOK AT THE LOWER PRICES

List prices as much as \$76.05 lower on popular models with popular equipment The '60 Chevrolet models most people

buy, equipped the way most people want them, are actually priced lower than last year's models. This twotone Bel Air V8 sedan, for examplewith Turboglide, push-button radio and de luxe heater-lists for a whole \$76.05 less! Prices are lower for all comparable V8 models throughout the line. Also for all comparable 6eylinder models with Powerglide. Yet Chevy's loaded with more of the things that put pleasure into owning a car. (Just look at the list!) It's the greatest year yet to get into a Chevy!

Softer, more silent ride with coil springs at all four wheels and new butyl rubber-cushioned body mounts. Big brakes for quicker, surer stops. Rivetless bonded linings mean they last longer, too.

More room to relax in. Chevy sedans offer roomier seating than any car in their class. Lower, narrower transmission tunnel means more foot room.

Only full wraparound windshield among the leading low-priced cars. Electric windshield wipers keep sweep-

ing even when you speed up to pass. Vent windows crank open and closed. So much simpler than fighting those tricky little catches.

Keyless locking of all doors. Quick and easy. The same key opens door, glovebox, trunk and starts the car. Economy Turbo-Fire Vs. Or how to get up to 10% more miles per gallon of regular and still have lots of "git."

Thriftiest 6 in any full-size car. It's

Pickaway Enterprises, Inc., et al.,
Defendants
MOBILE HOME PARK DEVELOP.
MENT CORP.. whose address is Chl.
cago, Illinois, is hereby notified that on
February 3, 1960, Capital City Excavating Co., Inc., filed a petition as plaintiff in the Common Pleas Court of Pickaway County, Ohio, in Cause No. 22723,
against them and others as defendants,
alleging that of January 29, 1960, upon
consideration of the Court of Common
Pleas, Franklin County, Ohio, Plaintiff
recovered a judgment against the defendants Pickaway Enterprises, In c.
and Frederic E. Whitaker, for the sum
of \$2753.25, interest and costs; that on
the same day a certificate of said judgment was filed with the Clerk of the
Court of Common Pleas, Pickaway
County, Ohio, and that an execution was
issued to the Sheriff of Pickaway County, Ohio, directing him to levy on all
property, both real and chattel of said
Pickaway Enterprises, Inc., which said
execution was returned wholly unsatisfied. Further plaintiff says that said
judgment is in full force and effect and
unpaid; that there is due plaintiff on
said judgment the sum of \$2753.25 plus ampaid; that there is due plaintiff on said judgment the sum of \$2753.25 plus interest from January 29, 1960 and

costs.

That the defendant Pickaway Enterprises, Inc. has neither personal or real property subject to levy on execution sufficient to satisfy the judgment and interest.

Migrant Farm Kids To Get Special Schooling in Summer

The state's plan to operate schools hope for better wages. "All agrifor children of migrant farm workers this summer for the first time is one evidence of increased interest in these workers' welfareand a nagging northwestern Ohio

About 12,000 migrant workers will start arriving in Ohio in May. The migrant workers were the subject of a day-long conference Thursday as the 35-member Governor's Committee on Migrant Labor met at Bowling Green State University.

An audience from 18 counties heard a four-man panel hammer at the theme: Treat them well or they won't come back.

There is a big public relations problem, said Ben Weaver, of H. W. Madison Growers Assn. "We lose many workers for lack of little considerations like a 98-cent broom to sweep out their houses. "Texas has orders for 124,000

workers, and only 22,000 will be filled," he said. "It takes a selling job to get this labor. They go where they feel is best for their welfare and acceptance."

Several cases of prejudice and misunderstanding were cited by panelists and persons in the audence. There was a report that a group of 30 workers arrived tired and hungry one Sunday at Fremont and were refused service in restaurants.

Phillip W. Alvardo, himself a migrant worker once, now psychologist for Lucas County schools, recalled his days in the fields:

"We found a gallon of milk and some eggs on our doorstep every night," he remembered. "We always came back to that place. You can do a great deal to

make these people feel wanted. They don't need cash especially, There is a cultural block, but also an intellectual one. When 15year-olds are reading at the second grade level and can't understand themselves, how can they understand you?

and we're the worst off Others at the conference saw mechanical improvements on the horizon that in a few years would start eliminating the need for most

migrant labor. But Miss Margaret A. Mahoney, state director of industrial relations, said the migrant worker is essential to northwest Ohio. She added that northwest Ohio is essential to urban Ohidans who like to eat.

The committee is charged with exploring ways to improve the standard of living for the migrant workers, who arrive in mid-May to thin and hoe sugar beets. The workers usually stay to harvest fruit and tomatoes.

Indications at the conference were that the shacks where as many as a dozen workers are accommodated will be more closely inspected this year.

Demand for Steel Continues Strong

NEW YORK (AP) - Demand for steel continues high and will remain strong well into the second quarter, Iron Age Magazine said

The national metalworking weekly said, "Steel consumption is still up around seven million tons a month. Backlogs of orders for most products are close to three months and incoming orders are about 8 per cent of present rate of shipments.

"There is some apprehension about automobile production. But to date, automakers are taking all the steel they can get and are keeping the market tight for virtually all products with automotive applications."
